ORDER IN QUANTITIES OF 10'S OR 100'S PER SPECIES!

CONIFER SEEDLINGS \$10 per 10 / \$60 per 100	QTY	TOTAL
<i>Example Order*</i>	10	10.00
Fir, Concolor, <i>Abies Concolor</i> 8-14"		
Fir, Douglas, <i>Pseudotsuga menziesii</i> 10-18"		
Pine, Austrian, <i>Pinus nigra</i> 10-16"		
Spruce, CB, <i>Picea pungens</i> 10-16"		
Spruce, Norway, <i>Picea abies</i> 10-16"		
Spruce, White, <i>Picea glauca</i> 10-16"		

CONIFER TRANSPLANTS \$15 per 10 / \$120 per 100	QTY	TOTAL
Cedar, White, <i>Thuja occidentalis</i> 15-18"		
Fir, Balsam, <i>Abies balsamea</i> 8-15"		
Fir, Douglas, <i>Pseudotsuga menziesii</i> 15-18"		
Fir, Fraser, <i>Abies fraseri</i> 10-18"		
Spruce, Black Hills, 18-24" <i>Picea Glauca</i> Var. <i>densata</i>		
Spruce, CB, <i>Picea pungens</i> 15-18"		
Spruce, Norway, <i>Picea abies</i> 15-18"		
Spruce, White, <i>Picea glauca</i> 15-18"		

FRUIT SHRUBS	QTY	TOTAL
Blueberry - \$25 for 10 5-Early Blue Crop 5-Mid-Jersey		
Blueberry Ruble \$2.50 each		
Red Raspberry \$18 for 10		
Blackberry \$18 for 10		

Blueberries will be more productive if cross-pollination takes place. This means two or more varieties should be planted.

DECIDUOUS TREES \$10 per 10 / \$60 per 100	QTY	TOTAL
Am. Beech, <i>Fagus grandifolia</i> 18-24"		
Am. Mountainash, <i>Sorbus Americana</i> 18-24"		
Birch, Native, <i>Betula papyrifera</i> 18-24"		
Cherry, Black, <i>Prunus serotina</i> 18-24"		
Dogwood White Flowering, <i>Comus florida</i> 1-2'		
Maple, Red, <i>Acer rubrum</i> 18-24"		
Maple, Sugar, <i>Acer saccharum</i> 18-24"		
Oak, Red, <i>Quercus rubra</i> 1-2'		
Oak, Sawtooth, <i>Quercus acutissima</i> 18-24"		
Oak, White, <i>Quercus alba</i> 12-18"		
Sassafras, <i>Sassafras albidum</i> 1-2'		
Sycamore, <i>Platanus occidentalis</i> 1-2'		
Tulip Tree, <i>Liriodendron tulipifera</i> 1-2'		

DECIDUOUS SHRUBS \$10 per 10 / \$60 per 100	QTY	TOTAL
American Beauty Bush, <i>Callicarpa Americana</i> 18-12"		
American Cranberry, <i>Viburnum trilobum</i> 6-12"		
Burning Bush, <i>Euonymus alatus</i> 1-2'		
Butterfly Bush, <i>Buddleia davidi</i> 1-2'		
Buttonbush, <i>Cephalanthus occidentalis</i> 1-2'		
Dogwood, Red Osier, <i>Cornus stolonifera</i> 1-2'		
Elderberry, <i>Sambucus Canadensis</i> 18-24"		
Forsythia, <i>Forsythia x intemedia</i> 18-24"		
Lilac, <i>Syringa vulgaris</i> 1-2'		
Mock Orange, Sweet, <i>Philadelphus coronaries variegatus</i> 18-24"		
Rose of Sharon, <i>Althea-Hibiscus syriacus</i> 1-2'		
Spice Bush, <i>Lindera benzoin</i> 1-2'		
Witch-Hazel, <i>Hamamelis virginiana</i> 1-2'

PREORDER DUE DATE IS APRIL 6, 2012

Pick Up Dates & Times - Friday, April 27, 2012 from 9 am - 5 pm and
Saturday, April 28, 2012 from 9 am - 2 pm

Pick Up Location - SENECA COUNTY FAIR GROUNDS, WATERLOO, NY

Overstock will be sold at the pick up location. First Come First Serve!
Payment options will be cash or check only!

- Please call the office if you wish to order 500 or more of one species.
- Orders are filled on a **first come, first serve** basis! Supplies are limited, so get your order in **ASAP!**
- The SWCD reserves the right to substitute for species that become unavailable. If you are not satisfied with the replacement, you may request a refund at the time of pick up.
- There are no guarantees for the success of any bare root stock. The SWCD **IS NOT** responsible for the success or failure of your plantings.
- All seedlings are to be used for effective conservation practices such as windbreaks, soil erosion, etc. and should not be planted for ornamental purposes. Seedlings sold will not be removed with roots attached for resale.
- These plantings are bare root and the SWCD recommends you buy bald & burlap stock from your local nursery.

Seneca County Soil & Water Conservation District Conservation Planting Program Descriptions

CONIFERS

<p>Cedar, White - Grows up to 50'. Flowers open in March & April. Leaves are dark green and yellowish beneath; when crushed give off a smell of apples. Cones ripen from yellowish-green the following Autumn, about 1/2 inch-long with 8-10 scales.</p>	<p>Pine, Austrian - Grows up to 80'. It has a domed crown and spreading branches. Excellent for a windbreak. Dislikes dry soils.</p>
<p>Fir, Balsam - It is a small to medium-sized tree used primarily for pulp and light frame and construction, and it is one of the most popular Christmas trees. Wildlife relies extensively on this tree for food and shelter. Balsam fir prefers moist, cool, well-drained, acidic soil, but will tolerate some salt.</p>	<p>Spruce, Black Hills - Grows to be 30-60' in height. The Black Hills Spruce grows in acid, moist, gravelly or sandy loam, fine clay soils. Prefers moist, well drained soil, but will tolerate dry, well drained sites.</p>
<p>Fir, Concolor - A citrus smell is present when the needle is broken. White bloom may be distributed evenly or may occur in distinct bands on both surfaces. The Concolor Fir grows in acidic, drought tolerant, loamy, moist, sandy, well drained soils.</p>	<p>Spruce, Colorado Blue - Height 100'. Grows in acidic, alkaline, drought tolerant, loamy, moist, rich, sandy, well drained, wet, wide range, clay soils. The needles surround the branch at nearly right angles and are usually silvery to blue-green, but occasionally the blue is absent.</p>
<p>Fir, Douglas - Height 40-60'. Flowers open in late March and April. Leaves are densely set, needle-like with blunt tips and have a strong fruity fragrance. High quality timber. The DF grows in acidic, alkaline, loamy, moist, sandy, well drained, wide range, clay soils.</p>	<p>Spruce, Norway - Grows to be 40-60' in height. It grows in acidic, drought tolerant, loamy, moist, sandy, well drained, clay soils. This tree grows at a medium to fast growth rate.</p>
<p>Fir, Fraser - A narrow, pyramidal tree with glossy, dark green needles. The undersides of the needles have two white rows. Not suited for hot, dry sites as it prefers moist, well-drained sites.</p>	<p>Spruce, White - Grows to be 40-60' in height. The White Spruce grows in acidic, drought tolerant, loamy, moist sandy, well drained, clay soils. This tree grows at a medium growth rate. When crushed a pungent odor is apparent. Needle tips are pointed, but not sharp.</p>

DECIDUOUS TREES

<p>American Beech - Grows to be 50-70' in height. This tree grows in acidic, loamy, moist, sandy, silty loam, well drained, clay soils. This tree grows at a slow to medium growth rate.</p>	<p>Maple, Sugar - Grows to 60-70'. This tree grows at a slow to medium growth rate. Prefers well-drained soils. Brilliant fall leaf colors and pleasing growth habit.</p>
<p>American Mountainash - Grows 10-30'. This tree grows in acidic, loamy, sandy, well drained, wet, clay soils. This tree grows at a slow growth rate.</p>	<p>Oak, Red - Grows 50-75'. This tree grows at a fast growth rate. Grows in acidic, drought tolerant, loamy, and moist, sandy, well drained, clay soils.</p>
<p>Birch, Native - Grows up to 50'. Has white bark that will appear after 3 to 4 years. This tree will grow well in moist soils.</p>	<p>Oak, Sawtooth - 40-60' high tree with dense, wide-spreading branches. This tree grows at a medium to fast growth rate. The SO grows in acidic, drought tolerant, loamy, moist, sandy, well drained, clay soils.</p>
<p>Black Tupelo, <i>Nyssa sylvatica</i> - Grows 30' to 50' in height. Spectacular Fall Foliage with many shades of yellow, orange, bright red, and purple often on the same branch. Good for wildlife food for birds. Fast Growing Shade Pac Only</p>	<p>Oak, White - 60', slow growing tree. This tree is great feed for wildlife, and is also a great timber tree. White Oak grows well in moist soil types.</p>
<p>Cherry, Black - Grows up to 50 feet. Will have profuse white flowers in the spring and brilliant gold leaf color in the Fall. Fruit from this tree is good for making wine and jelly and is also a great food for wildlife.</p>	<p>Sassafras - 30-60' aromatic tree or thicket-forming shrub. The fruit is an elliptical shiny, bluish-black berry that is devoured by birds. The leaf color ranges from green to yellow in the summer, to deep orange, scarlet and then purple in the fall. Sassafras grows in moist, particularly sandy soils in the sun, however light shade is preferred.</p>
<p>Dogwood White Flowering - Grows to be 25' in height. Grows in acidic, loamy, moist, rich sandy, well drained, clay soils. This tree grows at a medium growth rate.</p>	<p>Sycamore - 75-100' tree with a massive trunk. The bark of a Sycamore is mottled. This tree is fast growing and prefers moist soils.</p>
<p>Maple, Red - 40-60' in height. This tree grows at a medium to fast growth rate. The Red Maple grows in acidic, loamy, moist, rich, sandy, silty loam, well drained, wet, clay soils. Red Maple is a strong wood. In the fall its leaf color will range from green to flaming orange. It is very tolerant of soils, but prefers acid soils.</p>	<p>Tulip Tree - 70-90'. This tree grows at a fast growth rate. Grows in acidic, loamy, moist, sandy, well drained, clay soils. Flowers May-June with greenish-yellow petals. Full sun, well drained loam.</p>

FAST GROWING SHADE PAC - Black Alder – Is a rapid growing tree that thrives in truly wet soil. Good choice for a windbreak area. **Honey Locust** – This tree grows at a fast rate. Tolerant of a wide range of soils including acid, alkaline, moist, dry, salt. Has fragrant spring flowers. **Black Tupelo, Silver Maple**—50-70 foot fast growing upright tree, with strong spreading branches. It matches rugged conditions with growth and durability. Silver Maple is an excellent source of shade. **Tulip Tree**

DECIDUOUS SHRUBS

American Beauty Bush - Grows 3-5' produces violet to deep purple berries after the appearance of hundreds of delicate violet blossoms in spring. Does best in a moist, enriched, well-drained soil. Doesn't require full sun.

American Cranberry - 6-12' multi-stemmed shrub. In May this plant has white flowers. September through February it has bright red fruit. The fruit of American Cranberry is used in jelly and is great for attracting birds.

Blackberry - This plant produces large black fruit that is firm, fleshy, and sweet. Blackberry will produce over a long period of time. It is a very hardy and heavy producer. The root systems of this plant have great soil holding capacity.

Blueberry Highbush (early/mid) - Slow growing, upright, multi-stemmed shrub with spreading branches that form a rounded, dense, compact outline. It is hardy from zones 3 to 7 and at maturity can be from 6 to 12 feet high with a spread of 8 to 12'.

Blueberry Ruble - 4-7' consistently produce high yields of smaller to medium berries.

Blueberries will be more productive if cross-pollination takes place. This means two or more varieties should be planted.

Burning Bush - 15-20' broad and mounded shrub. It has a dark green leaves that turns a brilliant red in the fall. Burning Bush is a very adaptable plant and tolerates shade. This plant prefers well-drained soil and it will withstand heavy pruning.

Butterfly Bush - 5-12' multi-stemmed shrub. This bush will have fragrant flowers July through the fall. Butterfly bush attracts butterflies. It should be heavily pruned in the spring and it tolerates most soils.

Buttonbush - 3-6' rounded ganging shrub. This native plant is great for wet areas. Has an interesting white flower. in late summer.

Dogwood Redoiser - 7-9' slender, upright shrub. It has a red stem and white drupe fruit in mid-August. Redoiser Dogwood is best in wet or swampy conditions. It is also a great structure for holding soil on sloped areas.

Elderberry - 5-12' multi-stemmed shrub. In mid-June it has white flowers and in mid-August it has purple fruit. Elderberry tolerates soils and roadside conditions.

Forsythia - 8-10' upright and wide shrub. It has yellow flowers in April for 2-3 weeks. Full sunlight is needed for maximum flower. Forsythia prefers loose soil, but does well in any type.

Liatris spicata - dense blazing star is a herbaceous perennial. It thrives in full sun and attracts birds and butterflies **BUTTERFLY PAC ONLY**

Lilac - 8-12' leggy, upright shrub. In mid-May it has fragrant flowers.

Red Raspberry - 3-5' foot dark green foliage on an upright bush, producing bright berries. Bloom time late spring, fruit begins to ripen in mid summer. Full sun required.

Rose of Sharon - 8-12' erect shrub or small tree with numerous upright branches. This plant flowers July through September. Althea will tolerate moist soils, full sun, and is pH adaptable.

Spicebush - 6-17' high shrub with similar spread, producing flowers March-April. A tea can be made from the leaves and twigs. This shrub grows best in well-drained, moist soils in full sun or 1/2 shade.

Sweet Mock Orange - 8' all around striking, white-margined leaves are the main attraction of this dense, bushy shrub. Its richly fragrant flower clusters in late spring and early summer are a bonus.

Witch-Hazel - 20-30' wide spreading shrub. It has yellow fragrant flowers that last in to late October. This native plant will grow in wet shady areas as well as in the open sun.

GROUNDCOVERS

Daylily –Stella De Oro - 15-18" full sun to part shade flower. Color is golden yellow 2-3" bloom, early to late season/re-blooming.

Hosta - 22" high, spreading plant. It has a blue-green leaf color and a funnel-shaped, lavender flower that appears in July. Hosta will tolerate sun and grows best in well-drained soils. This plant has an extensive root system, which makes it excellent for erosion control. It is also disease resistant.

Pachysandra - 1' trailing evergreen. Spikes of snowy flowers bloom in April. At it's best in shade and acid soil. Good cover under trees & shrubs.

Myrtle - 1' evergreen vine. Grows almost anywhere, ranging from deep shade to full sun in dry to moist soil types. Green foliage is enhanced in May by a purple bloom.

Wildflower Seed Packets

Original, Sunny, and Shady—see our website for descriptions of each.

FERN PAC - Christmas – 1-2' height full evergreen dark green in color requires shade to partial shade. Prefers neutral to acid soils.

Cinnamon – 2-5' height non-evergreen fern. First foliage appears as Cinnamon sticks. Later producing leaves that are deep waxy green.

Prefers acid soil, up in late April dormant in September. **Maidenhair** – 18" tall, delicate fern. Lacy, soft leaf grows rapidly. Cannot

tolerate dry soils and prefers neutral and moist soils. Dies back in September. **New York** – 18' semi-evergreen hardy fern. It likes dryer

soils. New York fern has yellow-green leaves that spread rapidly. This is a good groundcover and requires shade to partial sun. **Ostrich** –

3-6' rich green fern. Light shade to partial sun preference. Applications along ponds and low wet areas are ideal.
